

# Bonito

## Soap for oiled wood

Bonito is a soap for the maintenance of oiled wood. Bonito is composed of derivatives from coconut and soya oils.

### Preparation

Wait at least 10 days before starting the maintenance of freshly oiled floors. Vacuum or sweep with a broom to remove all residues.

### Application

Shake well. Dilute 50 ml of Bonito per 4 liters of water (preferably warm). Wash the surface with this mixture. Rinse with clear water. Be careful not to wet the surface too much. Wipe dry.

### Application Tools

Sponge mop, cloth.

### Storage

Keep in a dry and cool place away from frost.

If the product has frozen, allow the product to thaw at room temperature for 24 hours without stirring.

### Residues Disposal

Consult your municipality for proper disposal of the remains of this product.

### Warranty

Tembi products guarantee the quality of its products. They comply with the description given in the data sheets and proper labels for their intended use, in accordance with the instructions indicated by the company. However, since the manufacturer has no control over the circumstances, methods and usage conditions, this warranty covers only the high quality of Prato-Verde products.
